**Required Course Materials:**

**Text:** Pugel, Thomas A.,

**Course Description and Objectives:**

**Learning objectives and outcomes:**

The main objective of this course is to gain intuition for how to think about an international economic problem. In particular, the class will enhance your understanding of the essential vocabulary, analytical tools, theoretical principles, practical applications,

I urge you to \_\_\_\_\_ this material \_\_\_\_\_. You can learn as much from each other as you can from the textbook or from class.

### **Information Dissemination:**

In Econ2207 we will maintain a course website on \_\_\_\_\_.

Please check the website frequently as the additional problem sets, answer keys, notes, announcements and more will be posted there (as .pdf) and will be available for you to download/access.

The best way to reach me is via e-mail ([can.erbil@bc.edu](mailto:can.erbil@bc.edu)). I do my best to answer my e-mails within 48 hours. Since I have 426 students this semester, my e-mail responses will be rather short, in many cases just keywords (like “no” or “read the syllabus” or “drink more coffee”, etc...). Please don’t mix up the brevity of my e-mails with “shortness”. It is the only way I can keep up with correspondence.

If you cannot make my scheduled office hours, and would like to set up an appointment to see me outside of my office hours, please

\_\_\_\_\_ and I will try to find time for you. Please don’t include anything else (like hair appointments) to your schedule other than your \_\_\_\_\_.

### **Optimizing Your Performance:**

Here are some suggestions that may help you to have the best chance to do well in our class:

- 1) \_\_\_\_\_ The purpose of the course is to teach you something, not to toss out information and see how much sinks in.
- 2) Do the \_\_\_\_\_ before class to get a preview of the material to be

**Grading:**

Approximate weights for your **final grade** will be:

--

- how relevant the connection to class material is
- how well the analysis is written
- how well is the analysis grounded with data, graphs, equations, etc...

**Policy Analysis/Case Study (25%):**

The policy analysis assignment will be due on the last week of the course. This assignment will allow you to chose a current event and analyze it with the tools and models we developed in class during the semester.

It is a (4-5 pages, 1.5 space, font size 12) with a focus .  
It will mimic our group presentations, but this time it is solo. You can pick any topic we covered in class.

- i) Please find a recent article related to “Global Economy”

[The choice of your source (your article) is very important. It has to be directly related to what we covered in class and

2) Try to \_\_\_\_\_, preferably using

[This is the most important task, along with the choice of your source. These two will shape your grade.]

3) Put your \_\_\_\_\_ (10-15 slides max).

4) Please make sure to

Boston College is committed to providing equal and integrated access for students with disabilities to all available academic, social, and recreational programs and activities. The Disability Services Office at Boston College ensures that students with disabilities receive appropriate accommodations and assistance in order to participate fully in University programs.
