You have been selected to help with an important research project. The purpose of this research is to evaluate the motivation for using the Woolson Community Garden and its importance to the community. We request your participation for 20-45 minutes of your time to complete an interview regarding your participation in the Woolson Community Garden.

Participation in this research is voluntary and unpaid. You may choose not to answer specific questions or may discontinue participation at any time without penalty. Your responses will remain completely confidential. There are no foreseeable risks associated with participation in this study.

If you have concerns or questions about this study, please contact the researcher Jennifer Kelly, McGuinn Hall, jennifer.kelly.3@bc.edu and 617-552-4131. If you have questions or concerns about your role and rights ~~sl-quest~~ est
