Assist onsite teams

2018: Internal climate-risk overview (primarily focused on sea-level-rise and earthquake/liquefaction hazards)

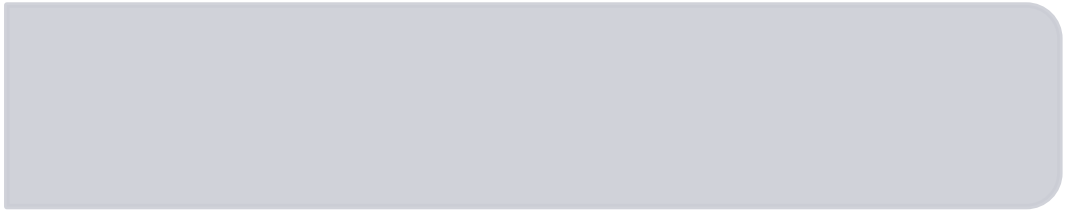

2019: Engaged consultant to do pilot

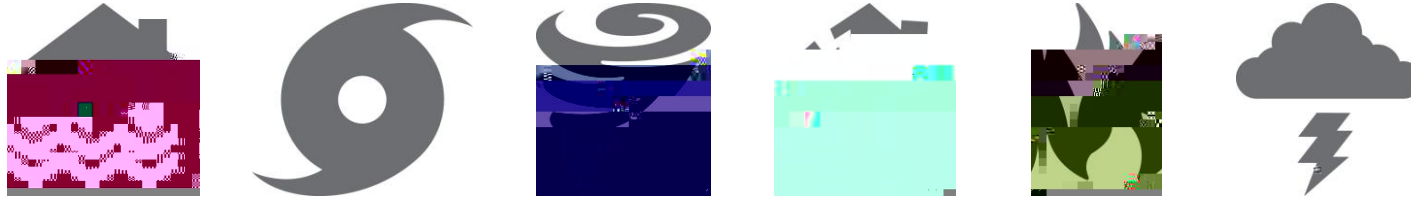

2020: Implemented Climate & Emissions Risk dashboard

Odds Are That Disaster Will Strike

Disasters happen often and sometimes without warning.

They can affect any community.

It's considered a disaster if:

Normal response systems are overwhelmed

People are hurt

Property is damaged or destroyed
